

## Tired of the Waste and Overuse Associated with Creamer Cups?

### A FlexoShot dispenser can help!

Let your customers whiten their beverage to their liking! Convenience, durability, and reliability make **FlexoShot** dispensers the ideal solution for a variety of liquids including cream, milk, ready-to-drink cappuccino, coffee blends, and beverage bases.

With the flexibility to choose product bags or refillable containers, you'll appreciate bulk product cost savings, improved sanitation, and reduced labor costs thanks to a reduction in refill frequency.

The optional illuminated display provides an eye-catching door graphic that can be customized with your marketing message. Your customers will enjoy faster service, improved convenience, and great tasting beverages with every visit!

### FEATURES AND BENEFITS:

- Available for one, two, or three product offerings
- Accommodate various dairy packaging including dairy bags, refillable containers, and bag-in-box formats
- Some models come with an illuminated door that grabs the attention of customers
- Proven refrigeration system ensures product quality, optimal shelf-life, and sanitation
- USA And Canada-wide Technical Service Network with SureShot Technical Assistance Center support

### AVAILABLE PRODUCT FITMENTS
