MULTI-SWEETENER

SURESHOT SOLUTIONS

Trying to Reduce Sugar and Sweetener Costs?

The Multi-Sweetener dispenser can help!

The right amount of sugar or sweetener in a cup of coffee, tea, or espresso-based specialty beverage is key to customer satisfaction. The Multi-Sweetener delivers accurate portions of sugar and sweetener products like Splenda so your customers can enjoy their cuppa joe just the way they like it.

What's in it for you? Increased sales, cost savings, and enhanced brand loyalty for your beverage program. Contact us today to learn more about the Multi-Sweetener and how it can help sweeten your profitability!

The Multi-Sweetener offers the following additional features and benefits:

Compact footprint (4 inches)	Takes up minimal space on the coffee bar.
Dual product capability	Two product options allow for a combination of sugar and a sweetener.
Easy-to-use button panel	A single touch of a button creates most beverages, including those requiring half, single, and multiple packets of sweetener.
Auger technology	Product clumps don't stand a chance. The auger always delivers the correct amount of product.
Easy-to-remove parts for cleaning	Parts can be removed without tools.
No monthly tube change	This dispenser is easy and affordable to maintain.
Programmable	Software updates and menu changes are a breeze.
